INSTRUCTIONS

DEFINITION FOR HOMEMADE BOAT:

Homemade watercraft means any watercraft that is built by an individual for personal use from raw materials that does not require the assignment of a federal hull identification number by a manufacturer pursuant to federal law. An individual may build or furnish specifications. A copy of the contract, specifications and bill of sale for raw materials must accompany registration and title application. The person furnishing raw materials under a contract may be considered the builder.

Every homemade watercraft must be certified as meeting safety standards of the United States Coast Guard before it can be sold by the builder. (See certification on form on reverse side.)

A REBUILT OR RECONSTRUCTED WATERCRAFT IN NO EVENT MAY BE CONSTRUED TO BE HOMEMADE.

BOAT MUST BE COMPLETED BEFORE APPLICATIONS ARE SUBMITTED

INSTRUCTIONS:

- I. Complete Application for Hull Identification Number in full. Application must be signed.
- II. Complete Watercraft/Motor Application in full and submit with correct fee. Application must be signed. If you have any questions, see instructions attached to Watercraft/Motor Application.
- III. Any watercraft that does not have a Hull Identification Number must have completed form and statement why the Hull Identification Number is being requested.
- IV. Submit pictures of the bow (port-left & starboard-right) transom of boat and of the whole boat.
