

BENEFITS OF BEING AN ENVIROTHON PARTNER

The SC Envirothon is an educational program of the SC Soil and Water Conservation Districts that works to produce action-oriented youth who care about our natural resources. This program is made possible only by the generous contributions of time and money from businesses and individuals. Several agencies and groups (SC Department of Natural Resources, SC Association of Conservation Districts, SC Conservation District Employees Association, individual Soil and Water Conservation Districts, SC Forestry Commission, Natural Resources Conservation Service, Carolina Technical College, Francis Marion University, the Department of Education and the Soil and Water Conservation Society) donate in-kind contributions and staff support. Appropriate in-kind contributions from businesses and individuals as well as financial support are greatly appreciated.
