**MARINE  
BOATBUILDERS  
COMPANY**

# About us

Since 1993, we have designed and built high-quality, custom-made pumpout boats, offering specific advantages over our competitors' boats by utilizing our own PUMP KLEEN® System.

- **Our focus:** Limiting waste dumped by boaters into our local waterways, keeping our waters clear and habitable for all of us
- **Our method:** Designing and manufacturing custom-made Pump Kleen® Pumpout Boats, Work Boats, Patrol Boats and Floating Restrooms
- **Our promise:** We are committed to the satisfaction of our existing and future customers as we work towards keeping our waters clean

We are the **only company on GSA** for **floating restrooms and pumpout boats** and we participate in all Clean Vessel Act Grant Program (CVA).

# Our products

- Pump Kleen®  
Pumpout Boats
- Floating Restrooms
- Work and Patrol Boats

Two Pumpout Boats ready for delivery to Arizona & Utah

# Pump Kleen® Pumpout Boats

A Pumpout boat pulls up to another boat and empties its waste tank into the Pumpout boat's on-board holding tank.

- Engineered by a U.S. Navy architect engineer
- Built for safety and simplicity
- Equipped with baffles for stability
- Five different sizes (19', 20', 23' 26' and 31') to meet your specific needs
- Designed for ease-of-use and long-term durability, with low maintenance in mind
  
- Buy Back/Trade in Program.

# Floating Restrooms

Our ADA-compliant floating restrooms, or floating sanitation facilities, are made for use in no-discharge waters.

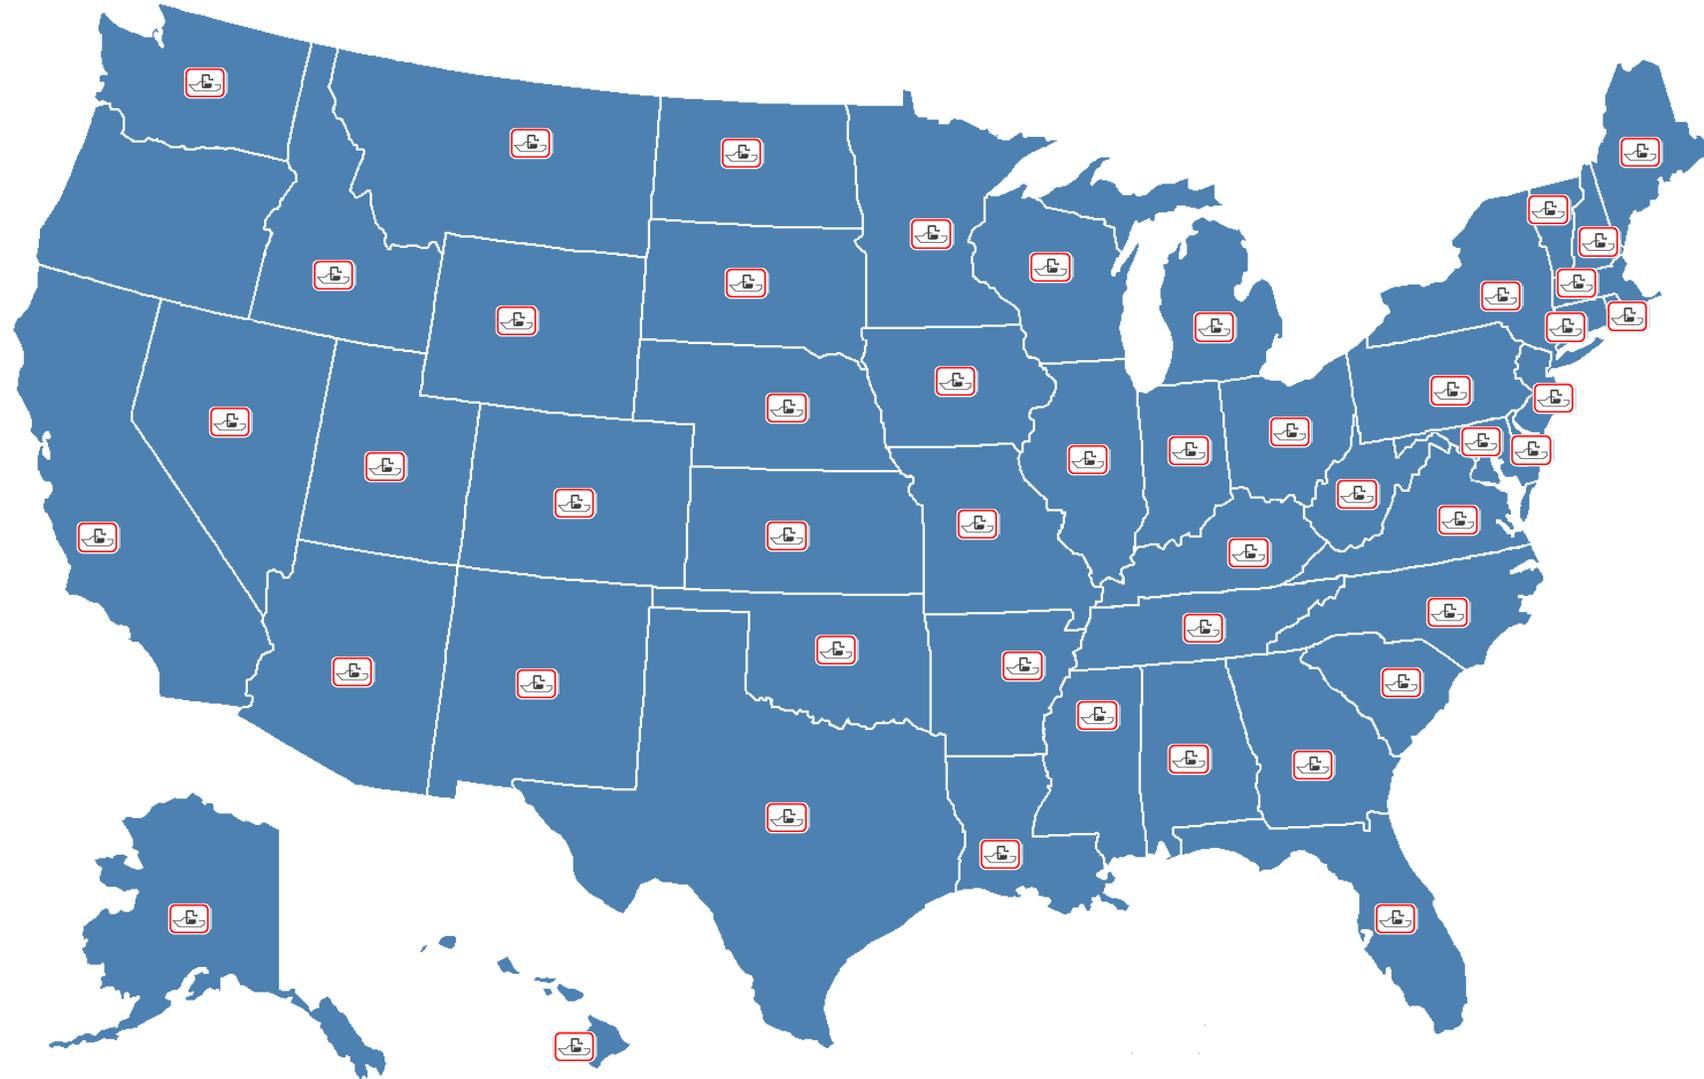

- Each floating restroom has three compartments:
  - Fully ADA-compliant restroom
  - Non-ADA restroom
  - Maintenance shed
- Our 1,000-gallon holding tanks are extremely durable and can even withstand abuse from impact, such as grounding
- Constructed of composite materials for easy clean-up
- Available in your choice of colors

# Our customers

- U.S. Parks Departments
- Towns & municipalities
- Private marinas
- Private boat owners

We operate in all 50 states and Canada.
