

# HARVEST REPORTING FOR DEER STARTS THIS FALL

Beginning with the 2024 Deer Season, all deer harvested in South Carolina must be electronically reported with the SC Game Check system. This is the same system currently used for reporting harvested wild turkey and black bear. You will be able to report through the **Go Outdoors SC** mobile app & website as well as the SC Game Check phone or text options.

Complete details will be included with your 2024 Deer Tags and more information will be provided via SCDNR social media and on the website prior to deer season.

**DOWNLOAD THE APP TODAY!**
