

## Marine Game Fish Tagging Program

### Monthly Summary

March 2026

During the month of March 2026, a total of 391 fish were tagged and released and there were 118 recaptures reported. Because program activity is ongoing, this report represents approximate numbers and may not be reflective of total overall activity.

| Species               | Tagged     | Recaptured and Released | Harvested |
|-----------------------|------------|-------------------------|-----------|
| Drum, Red             | 171        | 63                      | 3         |
| Sheepshead            | 149        | 45                      |           |
| Snapper, Red          | 33         |                         |           |
| Flounder, Southern    | 15         | 1                       |           |
| Drum, Black           | 5          | 1                       | 1         |
| Scamp                 | 4          |                         |           |
| Sea Bass, Black       | 4          | 1                       |           |
| Grouper, Gag          | 4          |                         |           |
| Porgy, Red            | 3          |                         |           |
| Bass, Striped         | 2          | 1                       | 1         |
| Porgy, Whitebone      | 1          |                         |           |
